

## NEWS RELEASE

### **Evrim appoints Dave Groves as Vice President of Exploration**

Vancouver B.C. – June 17, 2019: Evrim Resources Corp. (TSX.V:EVM) (“Evrim” or the “Company”) is pleased to announce the appointment of Dave Groves as Vice President of Exploration for the Company. “Dave will be a key contributor to our generative efforts as well as providing technical leadership and assisting with business development,” stated Paddy Nicol, President and CEO of Evrim.

Mr. Groves has over 35 years’ experience in precious-metals exploration, resource development and exploration business development. Most recently, he served as a non-executive director for Sarama Resources and as a consultant for Evrim, where he provided target-generation and program-design services in North America. Previously, Mr. Groves held the position of Vice President, Global Exploration for Centerra Gold where he led and managed the company’s resource development and greenfield exploration programs in Kyrgyzstan, Mongolia, Turkey, Russia and China. Before Centerra, and for much of his career, Mr. Groves was with Newmont Mining Corporation in exploration and business development roles in North America, Australia, Europe and West Africa. During his tenure at Newmont, he participated in the discovery and delineation of the Leeville and Turf gold deposits on the Carlin Trend in Nevada, directed greenfield discoveries of Carlin-type and high-sulfidation gold deposits in the Tethys mineral belt in Turkey and Armenia and oversaw a major resource expansion at the Akyem gold deposit in West Africa.

Mr. Groves holds a Bachelor of Arts in Geology from the University of Maine at Orono and a Master of Science from the University of Minnesota-Duluth. He is a Fellow of the Society of Economic Geologists and a Certified Professional Geologist with the American Institute of Professional Geologists.

Dave takes over from Charles Funk, who is leaving the Company to pursue other interests. The Company would like to acknowledge and thank Charles for his contributions over the past three years.

“We are very excited to have someone with Dave’s breadth of knowledge and experience in mineral exploration to generate new ideas and opportunities for Evrim,” commented Paddy Nicol. “He has already made significant contributions to our current alliances with Newmont and Yamana and we look forward to working with him to create value for our shareholders and our partners.”

#### **About Evrim Resources**

Evrim is a precious and base metals project generator, with early stage exploration projects and a database covering substantial areas of Mexico, western Canada and portions of southwestern United States. We focus our expertise on identifying new early stage exploration targets which are later advanced through option and joint venture agreements with industry partners to create shareholder value and avoid stock dilution. Evrim’s business plan also includes royalty creation utilizing the Company’s exploration expertise and existing projects.

### **Forward Looking Information**

This news release includes certain statements that may be deemed "forward looking statements". All statements in this news release, other than statements of historical facts, that address events or developments that Evrim Resources Corp. (the "Company") expects to occur, are forward looking statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur.

Although the Company believes the expectations expressed in such forward looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward looking statements. Factors that could cause the actual results to differ materially from those in forward looking statements include market prices, exploitation and exploration successes, and continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Except as required by securities laws, the Company undertakes no obligation to update these forward looking statements in the event that management's beliefs, estimates or opinions, or other factors, should change.
